SKILLS

Languages: C, C++, Java, Python, JavaScript
Frameworks: HTML, CSS, Bootstrap, Node.js, React.js, PHP
Tools/Platforms: Git, GitHub, VS Code, MySQL, MongoDB
Soft Skills: Problem-Solving, Team Player, Project Management, Adaptability

PROJECTS

Plagiarism Detection Tool for Code Submissions | Link July 2025
Tech Stack: Python, HTML, CSS, Node.js, DSA

- Developed an automated tool to detect code similarity using tokenization, AST comparison, and string-matching algorithms.
- Implemented support for multiple programming languages and added preprocessing to reduce false positives.
- Generated detailed similarity reports to assist instructors in evaluating programming assignments.

Yoga Se Hoga | Link March 2025
Tech Stack: HTML, CSS, PHP, JavaScript, Node.js, MySQL

- Designed a wellness-focused platform (YogaSeHoga.net) showcasing offerings like Yoga, Meditation, and Pilates to help users improve flexibility, mental clarity, and core strength.
- Created structured content sections highlighting expert-led yoga sessions, guided meditation for mindfulness, and tailored Pilates programs with clear user benefits.
- Integrated intuitive “Learn More” modules to enhance user engagement and effectively communicate the value of each service

Tour Operator Platform | Link January 2026
Tech Stack: HTML, CSS, JavaScript, Node.js, React.js, MongoDB

- Architected a travel booking platform (WanderEase.com) enabling users to browse and reserve curated tour packages across domestic and international destinations.
- Structured comprehensive travel sections featuring itineraries, adventure experiences, cultural tours, and customized holiday plans with clearly defined highlights.
- Optimized interactive “View Details” and booking workflows to improve usability, streamline navigation, and enhance overall user experience.

TRAINING/EXPERIENCE

Lovely Professional University July 2025
Application Development in Data Structures & Algorithms | Link
Tech Stack: C, C++, Python

- Engineered core data structures such as arrays, linked lists, stacks, queues, and trees, improving program efficiency and reducing time complexity for key operations by up to 40%.
- Optimized sorting and searching algorithms (Bubble, Selection, Merge, Binary Search), resulting in a 50% decrease in execution time across multiple problem-solving tasks.
- Crafted algorithmic solutions using recursion, dynamic programming, and greedy techniques, enhancing problem-solving accuracy and speeding up solution development by 35%.

CERTIFICATES

- Basics of DSA, LPU | Certificate July 2025
- Internet of Things (IoT), NPTEL | Certificate April 2025
- 72-Hour DSA Bootcamp | IamNeo | Certificate December 2024

ACHIEVEMENTS

- Reached a 5-star rating on Hacker Rank in Java
- Secured a Top 10 position in the “Binary Blitz” Hackathon at LPU

EDUCATION

Lovely Professional University Phagwara, Punjab
Bachelor of Technology - Computer Science and Engineering: 6.8 August 2023 – Present

Resonance International School Muzaffarpur, Bihar
Intermediate; Percentage: 63% April 2020 – March 2022

Sushant Public School Muzaffarpur, Bihar
Matriculation; Percentage: 86% April 2019 – March 2020
